KEYNOTE LECTURE

The Pursuit of Beauty: Thirty Years in Design
 Friday, November 9, 10:00 am
 Charlotte Moss

Recently honored with the New York School of Interior Design's Centennial Medal and named to *Elle Decor's* Grand Masters list of top designers, Honorary Chair Charlotte Moss is celebrating thirty-three years in the design business. Moss is a prolific author, having published ten books to date. Her most recent title, *Charlotte Moss Entertains* (Rizzoli, 2018), will be a feature of her presentation at this year's show.

In addition to her residential interior design projects, Charlotte designs fabric and trim for Fabricut; carpets and sisals for Stark Carpet; china for Pickard; and, most recently, a collection of furniture and upholstery for Century Furniture. Last year, she launched a clothing collection with IBU, a groundbreaking apparel and accessories brand of handcrafted pieces by women artisans in developing countries around the world. This fall, she introduces a jewelry collection with P. E. Guerin hardware based on designs from their archive.

Charlotte lectures widely and considers philanthropy some of her most important work. Recognized for her numerous contributions to a variety of causes, Charlotte has been honored with the Guild Hall's Special Award for Leadership and Philanthropic Endeavors; The Royal Oak Foundation's Timeless Design Award; House Works' Groundbreakers Award; The Bone Marrow Foundation's Brandon Tartikoff Award; the Edith Wharton Women of Achievement Award, and as Honorary Trustee of The American Hospital of Paris. *Lecture included with admission. Book signing to follow.*

SPECIAL LOAN EXHIBIT

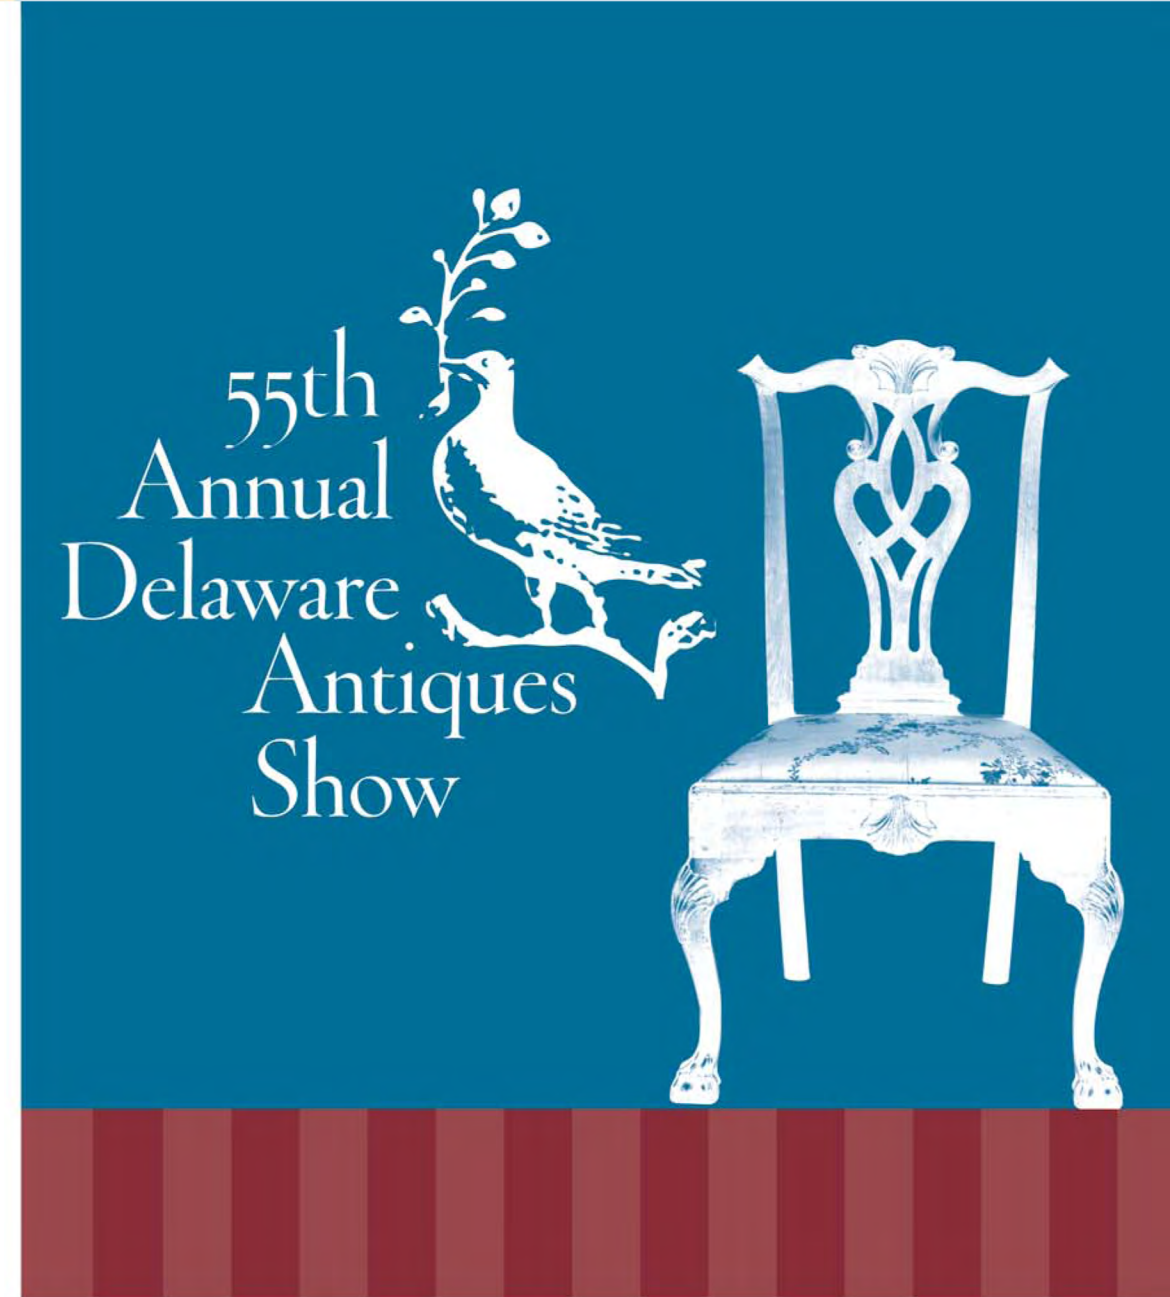

In Fine Form: The Striking Silhouette places objects from the Winterthur library and museum collections in conversation with one another on a journey to uncover the history of the enduring silhouette. Featuring illustrations from the 18th-century's most lavish publication—*Collection of Etruscan, Greek, and Roman Antiquities from the Cabinet of the Honourable William Hamilton*—as well as rare silhouette albums, scherenschnitte, wallpaper, Japanese stencils, and book covers, the exhibit reveals the many ways in which the silhouette has been consistently and successfully employed by graphic design, the fine and decorative arts, fashion, theater, and even the built environment.
