Yuletide at Winterthur

Whimsical woodland creatures scamper around a simple tree, created by staff floral designers to accent the colors, textures, and simple furnishings in Winterthur Museum's Webb Hall. The tree was meant to impress and intrigue visitors arriving for the annual Yuletide tour.

This year's Yuletide at Winterthur, November 18 through January 6, celebrates the exhibition Dining by Design: Nature Displayed on the Table with table settings evoking different times in history. Decorated trees will welcome visitors throughout the museum, and 2017's display of antique Santa and mischievous Belsnickel figures will return. For a full list of holiday events, visit Winterthur.org
